Banquet Hall Details

The banquet hall is set up normally to seat approximately 180 – 250 guests. Additional setup can be accommodated to expand capacity to 300 guests. The legal seating capacity is rated at 325 people. The room is flanked with large windows with adjustable blinds that can be used on days and times when there is bright sunshine from the west. The windows provide a nice stream of light to brighten the room at midday. The room is equipped with 8 rows of recessed lighting that can be dimmed for late evenings when dancing or video presentation may be desired. The front of the room has a large stage equipped with adequate electrical receptacles to accommodate large and small musical bands as well as Disc Jockey equipment and lighting. The stage has stair entrances on either end that can be moved to the front as well to allow easy and organized entrance to the stage floor for any event. The hall is equipped with 4 large televisions and integrated video that can be used to show wedding or anniversary videos during your event. The televisions are equipped for normal television reception as well should you desire to watch normal cable broadcast.

The banquet hall is equipped with a full public address system and a microphone and microphone stand can be made available for your use.

At the front of the room is a full service serving center. This has adequate space to provide the catering for your event. This center is 15 feet from the kitchen where your food is prepared should you choose us to handle your catering needs.

The serving center is equipped with coffee and water facilities and houses the china and other serving materials. The center can be closed from view if desired.

The banquet hall has its own bar area for your guests that desire a cocktail with dinner. A properly attired bar tender will be provided to attend to your guests.

The banquet hall can be entered from its own private entry from the front of the building so your guests do not have to enter the lounge area. This entrance creates a perfect greeting or attendance check area.

Safety is important to us and there are 3 separate emergency exits to speed exit from the building should the need arise. We also have an AED device and trained staff on site to accommodate a medical emergency that might arise.

Parents are responsible to watch their children. Children are not allowed to be outside the banquet hall area without parental supervision. Running outside in the parking area and drive areas is strictly prohibited. Climbing on railings and guardrails on the property is strictly prohibited. If this behavior is observed, security personnel will caution one time only. After the second caution, the children and parents will be asked to leave the premises.

As with any rental property, we do have certain rules and regulations that must be followed when renting the banquet facility. The following pages detail the rules and regulations that relate to rental of the banquet hall.
